### Works Done by the Committee

In 2012, the Special Committee offered its recommendation that the current website of the Bar (the "Current Website"), which is technically outdated and difficult to maintain in long run, should be replaced by a new bilingual website (the "New Website").

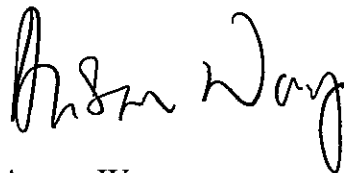

With the approval of the Bar Council, Innoways was retained in about May 2013 by the Bar to design and construct the New Website. Between May and September 2013, the Special Committee worked closely with Innoways to devise the layout and structure of the New Website.

Recommendations on the layout of the New Website and the site maps (both in English

and Chinese) were made to the Bar Council in September 2013. With the Bar Council's approval, the Special Committee instructed Innoways to commence its construction of the New Website. At the same time, the Special Committee also reviewed and revised the proposed contents of the New Website, which will be incorporated into the New Website upon the completion of its construction.

Whilst there are still a lot of works to be done before the New Website can be formally launched to the public, the Special Committee's current estimate is that the New Website will be fully functional in the second half of 2014.

I wish to take this opportunity to express my gratitude to all the members of the Special Committee for their hard work and efforts. My gratitude also goes to the members of the Bar Secretariat for their unfailing support to the Special Committee.
