

## **Report of the Committee on Constitutional Affairs and Human Rights 2025**

In September 2025, we organised an ALE webinar on “Recent Developments in Judicial Review”. The session was well-attended, and covered topics ranging from amenability to judicial review and non-adherence with policy as a ground of judicial review. I would like to thank Geoffrey Yeung and John Leung for agreeing to speak together with me on that occasion. Separately, as reported last year, members have inquired about the prospects of a CAT training course. As an update, we were informed earlier this year that there are currently sufficient members on the Duty Lawyer panel for CAT cases. At the present stage, they do not see the need for a further training course to be held, but we will keep abreast of further developments.
